

The International Collegiate Design and Innovation Competition

Beijing, 2016

Participation Information

About the competition

Application Deadline: June 26, 2016

Competition Dates: July 21, 2016–July 27, 2016

Organizer: Beihang University (BUAA)

Address: 37 Xueyuan Road, Haidian District, Beijing, China

Language: English

Arrival Date: July 20, 2016

Brief introduction of the competition

The competition which will be held from July 21 to July 27, 2016 in Beijing is designed to model an international student competition with Beijing characteristics, to broaden competitors' horizons, and to promote intercultural communication.

The participants will be required to form groups. The competition adopts an approach of assigning projects live at the onset of the competition. Therefore, participants should not prepare any work beforehand. Competitors will be asked to come up with a solution in a short time, and present it for the following evaluation. The Committee will hold a series of activities including academic forums and study tours to enhance communication between students from different countries.

In order to promote friendship and understanding among the students, the committee will arrange visits to places of historical and scenic spots in Beijing. In addition, some recreational activities will be organized as well.

About BUAA

Beihang University (also known as BUAA) was founded in 1952, with the merger of the aeronautical departments from eight top Chinese universities. Therefore it is the first Chinese university focused on aeronautics and astronautics and was recognized as one of China's 16 key universities. The university is currently a member of "985", a highly selective group of top Chinese universities supported by the "985 National Education Excellence Project", which aims to develop world-class universities in China. Beihang University is situated in Beijing within a zone called the

Zhongguancun Science Park. The main campus is located in Beijing's university area, while a new campus is in the city's northern suburbs. With its 30 schools, Beihang offers a wide range of degree programs which cover sciences, engineering, economics, management, humanities, law, philosophy, education, medicine and art. At present, Beihang has over 28,000 students. 13, 000 of them are undergraduates while the rest are postgraduates. The university has more than 1700 international students from over 80 countries.

Participant requirements

1. *Student qualification*: Participants must have completed at least two years of undergraduate study at their home university and have good communication and writing skills in English.
2. *Group requirement*: After admission, students will be required to form groups. One group should consist of 3-4 people from at least 2 different universities. At least one Chinese student and one overseas student are required in each group. Students from different countries or majors are encouraged to join in one group.

Competition arrangement

1. *Announcement of theme and background introduction*: According to this year's theme, the Committee will publish relevant background information in early June. The theme will be based on hot issues about aerospace, with specific emphasis on "aviation safety." Recent years have witnessed several severe airline accidents including Malaysia Airline MH370 Accident in 2014, Germanwings Crash in 2015 and Egypt Airline lost in 2016. Participants can choose a relevant topic according to their own interest to form a group.
2. *Announcement of project*: During the competition, the committee will announce the project to all competitors simultaneously and provide work requirements. All groups are required to come up with a solution within the allotted time and submit a final report on the competition website according to the requirements established by the committee.
3. *Evaluation and award*: The Committee will organize all the groups to engage in a public discourse with the Judges. Participants should prepare for presentations and respond to questions according to their reports. Judges will discuss and select winners according to group performances. Winners will be awarded with prize, money and certificates.

Registration

Participants need to send their scanned application form and Study Certificate (a scanned paper certification from university or scanned student ID card) to the ICDIC mailbox: icdic2016@outlook.com **by the deadline of June 26, 2016**. After receiving the registration email the Committee will have a quick check and reply soon.

During June 26, 2016 to July 5, 2016, the Committee will announce the participants list and organize all the participants to form their groups on the competition website as well as publish the choices of their group's topic.

Participants can contact the committee through the email address provided below.

Official Competition Website: www.icdic.org

Official Email: icdic2016@outlook.com

Other information

The competition embraces the form of a summer camp. The competition will be held in the first 3 days; academic forums and visits around Beijing occurring in the remaining 4 days. BUAA will reimburse travel expenses to and from Beijing up to a maximum of 2,000 RMB for each overseas student admitted to the competition. Expenses for food, lodging and the cultural tours for competitors during the competition will be covered by Beihang University. There is a 100 RMB deposit required from each competition participant. Each student will pay this deposit upon arrival at Beihang University as part of the registration process. The deposit will be returned in full to participants who finish the competition as required after the closing ceremony.

The International Collegiate Design and Innovation Competition Committee reserve the right of final interpretation of this competition.
